

# **BITS 2017**

## **Call for Abstracts**

<http://bioinformatics.it/bits2017>

Authors can submit contributions for their presentation as **Late Posters** to BITS 2017, with the same topics covered by the expired Call for Oral Presentation and Posters.

Abstracts will be reviewed by the Scientific Committee and accepted solely for poster presentation or rejected in case they do not match the scientific standards of the conference.

Authors presenting only Late Posters are not entitled to require a Travel Grant.

Submission of abstracts for Late Posters requires registration to the conference within three days after the acceptance notification. Each registered participant may be the presenting author of one oral communication and one poster, or two posters, including Late Posters.

---
