

## Computational Medicine in Oncology

*Organizers: Alberto Bardelli, Sabrina Arena, Mariangela Russo, Giovanni Germano, Giorgio Corti, Giovanni Crisafulli, Giuseppe Rospo, Elisa Mariella, Federica Di Nicolantonio, Enzo Medico*

4-6pm, Nov 8th, 2021

Aula Keplero, Molecular Biotechnology Center, via Nizza 52, Torino

### **Introduction**

Alberto Bardelli & Enzo Medico

### ***A bioinformatic workflow to identify genomic alterations in tumor cells***

Giorgio Corti

### ***Analysis of mutational signatures in cancer***

Giovanni Crisafulli

### ***Computational neoantigen identification in tumors***

Giuseppe Rospo

### ***Advancing precision medicine in oncology through the identification of gene expression outliers***

Elisa Mariella

### ***Tracking Genomic Evolution using Liquid Biopsy in cancer patients***

Giovanni Crisafulli

### **Discussion**
